ACTIVITY POINTS 2025-26

INTRODUCTION

The Alliance University Activity Points program serves as a structured initiative to encourage students to engage in a variety of activities beyond their academic pursuits. Recognizing that being successful professionals goes beyond academic knowledge, the program focuses on developing essential soft skills, leadership qualities, teamwork, entrepreneurship, and a commitment to societal causes. The Department of Student Support Services (DoSSS) will assist the students in all the process.

Activity Points program is a structured framework that nurtures professionals. It emphasizes soft skills, community engagement, tailors' requirements to different student paths, ensures coordination and verification, and recognizes students' commitment to personal and societal development by recording these points on their transcripts.

A. Holistic Development Emphasis: This program places a strong emphasis on holistic development, aiming to create individuals who excel not only academically but also in various aspects of life. Community service instills values of empathy, social responsibility, and community impact.

B. Coordinated Activities: To ensure program success, various university departments coordinate activities. This includes organizations such as the NSS (National Service Scheme), NCC (National Cadet Corps), and Sports departments, all of which facilitate diverse experiences that align with program objectives.

C. Documentation and Verification: Students are responsible for maintaining comprehensive documentation of their activities, including records of participation, event summaries, certificates, and other relevant proof. Verification by designated evaluators ensures the authenticity of students' participation. Students need to update and submit relevant documents at Department of Student Support Services (DoSSS) office on a regular basis.

D. Transcript Recognition: Although the Activity Points themselves are not graded, they hold significance as they are recorded on the student's transcript. This demonstrates the student's commitment to extracurricular and community service activities, enhancing their profile and showcasing their holistic development.

The Activity Points earned by students will be reflected on their academic transcripts as a formal recognition of their co-curricular and extracurricular engagements during their course of study at Alliance University. This inclusion aims to showcase the student's commitment to holistic development and active participation beyond academics.

Each activity recorded for transcript recognition must be verified and approved by the designated custodian, who is responsible for that category of activity. The custodian acts as the authoritative signatory, certifying the authenticity and validity of the student's participation and points awarded.

Transcripts will only be updated after the activity has been duly verified and signed off by the respective custodian. Students are expected to submit all relevant documents within the stipulated timelines to ensure recognition of their activity points.

NOTE: Under no circumstances will participation in activity point - related activities be allowed to interfere with academic performance - including classes, assessments, submissions or internal examinations. Activity points engagement must be strictly conducted over and above academic obligations.

MINIMUM POINTS REQUIREMENT

To stay actively involved and make the most of the opportunities offered, students are expected to earn a minimum number of points during the given period. All the undergraduate students are required to earn a minimum of 100 activity points per semester prior to the commencement of their final year. This guideline promotes regular participation and helps maintain a baseline of involvement across all eligible semesters.

The minimum activity point requirements, based on the duration		
Program Duration	Semesters Considered	Total Required Points
3 years	First 4 semesters	400*
4 years	First 6 semesters	600*
5 years	First 8 semesters	800*
*To be earned before the commencement of the final year		

ACTIVITY POINTS ALLOCATION AT ALLIANCE UNIVERSITY

Alliance University is committed to providing its students with a well-rounded education that goes beyond the classroom. Recognizing the significance of extracurricular and co-curricular activities in shaping individuals, the university has established a comprehensive system for allocating Activity Points. These points are designed to encourage active participation and acknowledge achievements in various domains, fostering holistic development and personal growth. The Activity Points system at Alliance University covers a wide range of activities, grouped into five categories.

ACTIVITY CATEGORIES

- A. Intra University:** These events take place within the university campus (School/Department events) and are open to all students. They serve as platforms for students to showcase their talents and skills.
- B. Inter University:** These activities involve participation in events or competitions that include other universities or institutions within the state or region providing an opportunity for students to benchmark themselves against peers from different academic backgrounds.
- C. State Level:** These activities involve participation in events or competitions that include other universities or institutions within and outside the state, which expose the students to higher standards, stronger competitors & more challenging problem-solving opportunities.
- D. National Level:** Achievements at the national level, whether in academics, sports, or other domains, are highly valued. National-level participation reflects a student's dedication and commitment to their chosen field.

- E. International Level:** Going beyond national borders, international participation and achievements demonstrate a student's global outlook, adaptability, and ability to excel on the international stage.

POINT ALLOCATION FOR PARTICIPATION

Participation in Events

Participation in events, regardless of the category, is rewarded with Activity Points. The points allocated vary based on the level of the event, reflecting the competitive nature and scope of the activity.

- A. Intra University:** Students earn points for participating in events and competitions within the university.
- B. Inter University:** Participation in external events, which may include attending conferences or workshops outside the university.
- C. State Level:** For students representing the university at events involving other institutions within the state or region.
- D. National Level:** National-level participation indicates the significance of competing at the highest domestic level.
- E. International Level:** Achieving international recognition and competing on the global stage rewards with exposure globally encouraging students to reach beyond borders.

Point allocation differs based on the activity level.

POINT ALLOCATION FOR WINNERS

- A. Third Place:** Students securing third position in any activities in intra, institute level and state level competitions will earn points based on the activity category. Whereas third position in national and international competitions will help the students win higher points.
- B. Second Place:** Those achieving the second position in intra, inter-university, and state level are recognized with points based on the activity category and higher points in national and international competitions.
- C. First Place:** The highest level of recognition is reserved for first-place winners, who can earn maximum points based on the activity criteria.

Note: In any of the above combinations the maximum points that the student can earn is dependent on the category of activity.

National Initiatives Participation

Alliance University constantly thrives on building character, discipline, and a sense of social responsibility within students through NCC and NSS programme.

- A.** The National Services Scheme (NSS) is a government-sponsored public service program in India. It aims to engage students in community service and promote social development.
- B.** The National Cadet Corps (NCC) is a youth organization under the Ministry of Defense, Government of India. It aims to develop character, discipline, leadership, and a spirit of service among students. With a combination of military training, community service, and adventure activities, NCC shapes students into confident and responsible individuals.
